WESTERN CLASSIC TRAIL SHOOT 2027
43rd Annual Western Classic Trail Shoot
33rd Annual NFAA Marked 3D National Championships
April 30 – May 2, 2027

Welcome to the 2027 Western Classic Trail Shoot / 33rd Annual NFAA Marked 3D National Championships!
Straight Arrow Bowhunters Club and the Western Classic Trail Committee have been working hard to make improvements for the 43rd Annual Western Classic Trail Shoot and the 33rd Annual NFAA Marked 3D National Championships, scheduled for April 30 through May 2, 2027. Some of these improvements include new 48" × 48" carpet and Rinehart target bales for pin-on targets to help eliminate shoot-through issues, additional shade covers, and, most importantly, some exciting modifications to the course!

NEW COURSE CHANGES FOR 2027
We are excited to introduce a new section of the course for the 43rd Annual Western Classic! We have been working to add five new target locations to the northeastern portion of the property. This new section will begin near what was previously Target 29, the 49-yard Brown Bear. Here is what you can expect along the redesigned course:

- **Target 28 – Brown Bear (49 yards):** The Brown Bear, previously Target 29, will remain in its current location. However, the shooting position has been moved down near the bridge, creating a steeper uphill shot. This will now be Target 28.
- **Target 29 – Moose (73 yards)**: From the Brown Bear, the course will extend north and uphill to the new Target 29, featuring a challenging 73-yard uphill shot at the Moose. Yes, we moved the Moose! Previously located on the ridge above the clubhouse at Target 69, the Moose has been relocated to this exciting new section of the course.
- **Target 30 – Boar (44 yards)**: From the Moose, the course will follow the road to Target 30, featuring a 44-yard downhill shot at the Boar.
- **Target 31 – Deer (41 yards):** Continuing north, archers will encounter Target 31, featuring a 41-yard uphill shot at the Deer.
- **Target 32 – Mountain Goat (46 yards):** After Target 31, archers will continue north along the road and emerge near the highest point of the club property. From here, you'll enjoy spectacular views of Mount Shasta and Mount Lassen! Target 32 will feature a 46-yard downhill shot at the Mountain Goat.
- **Target 33 – Possum (18 yards):** Following the trail east from Target 32, archers will arrive at Target 33, an 18-yard downhill shot at the Possum.
- **Target 34 – Grizzly Bears:** After leaving Target 33 and heading south, archers will return to familiar territory at Target 34, the Grizzly Bears, previously known as Target 33.

IMPORTANT: TARGET NUMBERS HAVE CHANGED!
Why is this important to you? Because several target numbers have changed, your favorite starting location may no longer have the same number! For example, if you traditionally start at Target 29, the 49-yard Brown Bear, you will now be starting at the Moose, a challenging 73-yard uphill shot. Please review the updated course map carefully before registering to ensure you select the starting target and location you want.

ADDITIONAL COURSE CHANGES
Several other adjustments have been made throughout the course:

- **Former Target 9 – Possum:** The Possum has been relocated to Target 33. The former Target 9 location near the parking area will remain open and may be used as a staging area for the Caribou shot, previously Target 10 and now Target 9.
- **Former Target 30:** This target has been relocated, it will now be Target 31.
- **Former Targets 31 and 32:** These locations have been replaced by the new Targets 30 and 32.
- **Former Target 69 – Moose:** The Moose has been moved from the ridge above the clubhouse to the new section of the course and will now be Target 29.
- **Bigfoot:** For those who enjoy starting at Bigfoot, please note that its number has changed from Target 54 to Target 55.

PLEASE CHECK YOUR STARTING TARGET WHEN REGISTERING!
We want everyone to have a great experience at the 2027 Western Classic Trail Shoot / 33rd Annual NFAA Marked 3D National Championships! With the course modifications and target renumbering, it is especially important to review the updated course map and verify your starting target when registering. Don't assume your favorite starting target has the same number as last year! Otherwise, you may find yourself starting in a completely different location than you anticipated. We are excited about these improvements and look forward to welcoming everyone to the 43rd Annual Western Classic Trail Shoot and the 33rd Annual NFAA Marked 3D National Championships, April 30 – May 2, 2027!

ELEVATION GAIN ON THE RANGE
The clubhouse and camping 900 feet elevation. The highest point of the property, near Target 32,1,160 feet elevation. Total elevation gain on the range is 260 feet.

See you on the course!
